### Unexampled Mammoth Scheme!!

THE following detail of a SCHEME OF A LOTTERY, to be drawn in December next, warrants us in declaring it to be unparalleled in the history of Lotteries. Prizes to the amount have never before been offered to the public. It is true there are many blanks, but on the other hand, the extremely low charge of \$20 per Ticket, the value and number of the Capitals and the revival of the good old custom, of warranting that every Prize shall be drawn and sold, will, we are sure, give universal satisfaction, and especially to the Six Hundred Prize Holders.

To those disposed to adventure, we recommend early application being made to us for tickets; when the Prizes are all sold, blanks only remain—the first buyers have the best chance. We, therefore, emphatically say, DELAY NOT! but at once remit and transmit to us your orders, which shall always receive our immediate attention. Letters to be addressed, and application made to

## New Sporting and Agricultural Publications.

Dear Sir—Mr. Porter, editor and proprietor of the New York "Spirit of the Times," the only newspaper dedicated to Sporting, published here, having refused to give our prospectus a place in that paper, or even a short notice as a common advertisement, tendered payment; we are, in consequence, constrained to issue a circular, one of which we have taken the liberty of forwarding to you, and solicit your patronage and that of your friends.

CADWALLADER R. COLDEN & CO.,  
Office No. 105 Fulton Street, New York.

February 25th, 1839.

To all Sportsmen and Supporters of the Turf, Breeders of Blood Horses, of Improved Cattle and Sheep, Planters, Farmers, Agriculturists, and the public in general.

THE WHIG.

Under the above title, will appear, on the first Monday in May next, a weekly newspaper, dedicated to Sporting, Agriculture, and Rural Pursuits and Recreations in general, blended with Dramatic Notices, Green Room Intelligence, Police Reports of moment, Passing Events of interest with a glance at the Fashionable Life of the day.

This weekly paper, though published in connection with a Sporting and Agricultural Magazine, as an auxiliary or adjunct sheet, thrown off weekly, with intent to put subscribers to the Magazine in possession of all sporting and agricultural intelligence, and passing occurrences, at an earlier date than the monthly periodical might be able to furnish the same, without any additional charge than the subscription to the latter; nevertheless, subscriptions to this weekly publication will be received, apart from that to the Magazine, at five dollars per annum, payable in advance.

SPORTING AND AGRICULTURAL MAGAZINE.

This periodical will appear on the first day of June next, and thereafter be issued in numbers, one for each day of every month. Six numbers to constitute the semi-annual volume.

The body of the work, or magazine proper, will, each number, contain four sheets, or sixty-four pages, occasionally more. To each number will be appended accounts of both American and English Racing, forming correct and complete racing Calendars of each. The whole matter thus embraced by each number, will comprise from five to six sheets, i. e. from eighty to ninety-six pages. It will be printed in octavo form, upon handsome paper.

Each number will be embellished with engravings, upon copper or steel, of the portraits of distinguished horses, celebrated cattle, and representations of other things or subjects of interest.

Although subscriptions in advance will be at all times acceptable, yet such will not be exacted until the volume shall have been furnished.

Terms—\$5 for the semi-annual volume of six numbers, (equal to \$10 per annum) payable on the completion of each volume.

To those who subscribe for the Magazine, the weekly newspaper will also be sent as an adjunct sheet, without any additional charge. Those subscribers to the former, will have the benefit of both for \$5 payable semi-annually, after receiving, and through the medium of the latter, be put in possession of all transient news, sporting and agricultural intelligence of the day, at as early a period as can be given by any weekly print.

It must be evident that work of this magnitude and got up in the style proposed, cannot be afforded (apart from any auxiliary publication) where talent is employed, at less than \$5 semi-annually, but the proprietors satisfied that a weekly publication which gives to the public the intelligence, passing events and matter of moment, no matter how frivolous its general contents, must retard the circulation of a monthly periodical, and determined to furnish the earliest information, have deemed it advisable, thus to throw out weekly an assistant sheet. By the mode proposed, subscribers will derive this further advantage. That the weekly paper will contain accounts of all races in calendar form, as they from time to time come off, notices of races to come, sweepstakes open or closed, matches, "on dies," weekly occurrences, sporting and agricultural intelligence generally and a multiplicity of the like, not required to carry into the Magazine as matter of record or reference, its pages thus divested of much extraneous matter, with which they would otherwise be clogged, will have the more room for that which is entertaining or instructive and thereby be rendered a work of great interest.

THE SPORTING AND AGRICULTURAL MAGAZINE, will (as its title implies) be dedicated to the Turf and all other Field sports; veterinary science, agriculture in all its branches; rural recreations and pursuits generally. Will treat upon Horses, their different kinds of qualifications. Breeding, rearing, training or breaking for the turf, the field and the road. Upon Cattle, their various kinds and peculiar properties; sheep and other domestic animals. Upon soils, tillage, manures, rotation of crops, draining carriages and implements of husbandry, application of power in draught, with an exhibition and explanation of novel inventions and improvements, and all such other matters as may offer to amuse or instruct.

That an efficient Magazine of sporting as well as agriculture is at this time a great desideratum, cannot be doubted; upon the latter subject we have few of moment, and on the want of the former, we give in corroboration of our assertion a quotation from a letter recently received, expressive of the opinion and ideas of a gentleman of the South, of large estate, great literary acquirements and practical experience, having at this day more capital invested in "blood stock," than any other person in the United States.

"We sadly need a good Sporting Magazine, which I have long been aware, must have an adjunct sheet thrown off occasionally and almost weekly, to insure its full and complete success. I have also known that a correct knowledge of sporting subjects and a thorough acquaintance with pedigrees and horses, are necessary and indispensable in its Editor to make it all we could desire, and you know full well we have no such work at present. I am now a flatiron, I hope you will allow, but I really believe, you could, if properly patronized, edit such a Magazine, and its accompanying and assistant sheet, in such a manner as to diffuse the proper kind of information among us here, and raise the character of such periodicals abroad. If you should undertake the task, I will aid you with my subscription, and in every way I can. We now have none worthy of preservation, or that can with confidence be referred to as authority in matter of fact or opinion. I wish you success with all my heart."

If a thorough acquaintance with the English Turf, a full knowledge of the American Turf, upwards of forty years, and of all the pedigrees, characteristics qualifications, family excellencies and defects of the English horses of the past and present day, and of their American descendants, veterinary science, personal attention to the racing stable, and the participation for many years in all field sports, breeding of horses, and improved cattle and sheep extensively, the practical culture of a large estate, long experience and intense study, theory combined with qualified us for the present undertaking, we may venture upon the task. The list of Sporting Writers is, at the present time, a limited one even in England; but that can and will write upon field sports is indeed a "rare avis," therefore, the greater the necessity to engage a combination of knowledge, taste and talent. This we have happily accomplished, by securing the aid of those most competent and familiar with the subject. Communications by "An Old Turfman" may heretofore been read with interest; his pen, and that of others of equal talent, will heretofore be devoted exclusively to this work, we think will give general satisfaction. Emboldened by this belief, we solicit your patronage, hope for your approbation, and trust to you for remuneration when due.

All orders (post paid) for the Whig alone, payment in advance. Or for the Sporting and Agricultural Magazine, which will include the Whig (payment not required in advance, if the order is accompanied by a proper reference, or the subscriber known to the publishers,) will meet with prompt attention.

PROSPECTUS

OF THE

NEW-YORK WEEKLY WHIG.

THE constant calls at our office for a weekly paper has induced us to commence the "NEW-YORK WEEKLY WHIG." We have incurred considerable expense in order to furnish our readers with a sheet sufficiently large to contain all the necessary matter expected in a weekly paper. We now present them with the

Largest Paper in the United States.

Our Politics our course is already known; our articles will be comprehensive, moderate and candid, with enough firmness and decision to convince our adversaries that they cannot drive us from the field while there is a rag of the Whig banner for us to rally under.

SCIENTIFIC SKETCHES will also appear regularly.

We have made arrangements by which we will be enabled to present every week, excellent MEDICAL REPORTS. This department will be under the supervision of one of the most eminent, experienced and skillful surgeons of this city, and cannot fail to be exceedingly interesting. There is not medical journal published in New York, and something of the kind has been much needed. We trust our medical department will in a great measure supply the want of so desirable a publication.

FOREIGN AND DOMESTIC NEWS, we shall give as fully as possible, and we intend to copy largely from the French and English papers.

FOREIGN LITERATURE will meet with careful attention. Our resources in this department are inexhaustible. German and French Literature will be particularly noticed. This department is supplied by one of the first scholars of the country.

HISTORICAL SKETCHES will appear frequently, and care will be observed to have them correct.

BIOGRAPHICAL NOTICES of prominent men, will form a portion of the reading matter of the Weekly Whig. It is our intention to furnish accurate wood cut likenesses of our native poets.

THE DRAMA we shall take under our especial keeping, and while we shall endeavor to do justice to the talented, we shall also closely criticize the wretched murders constantly committed upon the stage.

READING FOR CHILDREN will be furnished, with a wood cut generally accompanying. Our object here will be to interest and amuse the rising generation.

THE MUSIC of the stage needs reformation, and it will become our duty to point out, as far as possible, several improvements which are absolutely required by the rapidly increasing intelligence of the community.

TO THE LADIES we have a word to say, —we shall not forget their interests;—balls, parties and fashions will claim our notice frequently, and receive such attention as will please. We are fully aware, that to render our paper agreeable, we must receive the patronage and encouragement of our fair friends. We shall endeavor to deserve it by always furnishing something suitable to their tastes.

TALES of engrossing interest will always be found in the Weekly Whig.

Reviews of late publications, and notices of novels and romances, will be regularly given.

THE POETRY we publish will be carefully selected and we have on hand already several beautiful pieces from known writers, which we shall soon insert.

GENERAL EDUCATION will form a prominent feature in the Weekly Whig, and we shall constantly furnish matter of the first importance to parents and teachers.

EMBELEMENTS. We have several capital wood cuts, and others now with engravers, one or more of which may be regularly expected in each weekly number. They are mostly from original designs, and will add much to the value of the paper.

COMMERCIAL. We have a person employed, who for a long time has been engaged in procuring commercial intelligence which is every way competent, and will be found full reports of the Markets, Prices Current, Stock and Exchange, Bank Note Table, and all matters calculated to interest business men, who will all find it to their advantage to patronize us, as we in tend in each weekly paper to insert the advertisements published in the Daily Whig during the week.

TERMS. Three dollars a year, in advance and no paper will be furnished unless the terms are strictly complied with.

ORDERS for the paper must be addressed to the Publisher, JAMES G. WILSON, at the office of the New York Daily Whig, 127 Nassau Street. No letters taken from the Post Office, unless post paid.

COMMUNICATIONS may be addressed to the Editors; and sent also (post paid) to the office of the Daily Whig.

Persons sending \$5, (post paid) will be entitled to two copies of the Weekly Whig for one year; or one copy for two years.
